

Empowering Teachers. Engaging Minds. Elevating Science.

“School Specialty has offered us the most extensive professional development we have experienced in our work with any company.”

– NICOLE KREFTING, CURRICULUM COORDINATOR, GRAND FORKS PUBLIC SCHOOLS

Unparalleled support to take science instruction to the next level.

We provide high-impact professional learning that goes beyond training to ensure strong FOSS implementation and lasting instructional change.

Our teacher-centered approach offers responsive coaching, hands-on model lessons, and practical strategies that deepen three-dimensional science learning while strengthening ELA and math connections.

Aligned with National Implementation Research Network (NIRN) standards, our work is data-driven and focused on capacity building to ensure sustainable success.

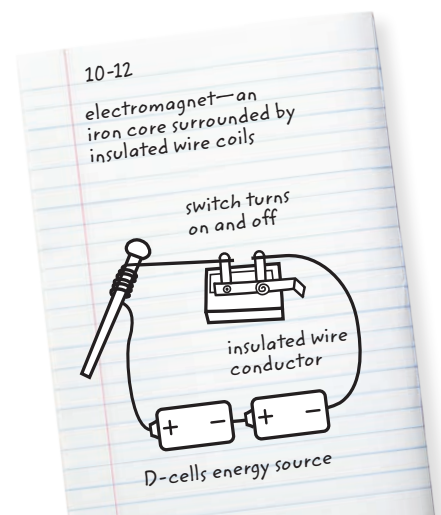

Professional learning tailored to your goals, timeline, and budget.

We partner with districts to design an optimal mix of in-person and virtual learning.

Customize your next professional learning session, series, or cohort around one of these powerful science teaching and learning topics.

- Routines for Coherence
- Elevating Literacy Through Science
- Science of Reading
- Sensemaking for Three-Dimensional Learning
- Embedding Assessments using Science Notebooks
- Formative Assessment Practices
- Supporting Multi-Lingual and Nonverbal Learners
- On-site support, such as modeling lessons, administrator coaching, and FOSS implementation

“Because the professional learning is personalized, teachers feel it truly meets their individual needs and classroom contexts. Teachers have gained confidence in stepping back and letting students do the thinking and explaining.”

— CYNTHIA APALINSKI, SUPERVISOR OF SCIENCE, LINDEN PUBLIC SCHOOLS

A dedicated partner committed to your success.

With School Specialty's Professional Learning, you gain more than just implementation training. We are committed to your ongoing success with every student throughout your adoption.
